How to Measure

**Series 3300 & 3700
Fabric Window Awnings**

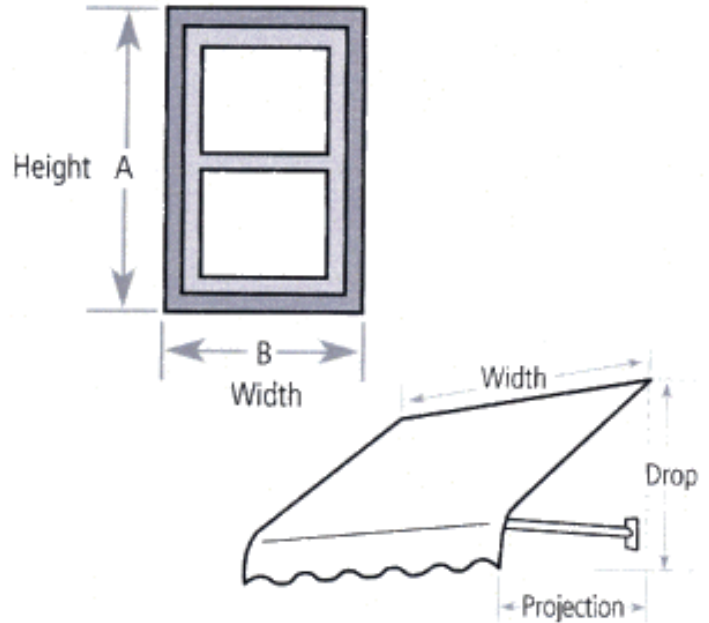

Series 3300 and 3700 Window Awnings are shipped partially assembled with all necessary hardware for quick and easy installation complete instructions included.

Step 1: Using chart below, Choose the DROP that best suits your needs. This will determine how far down the window the awning will come. The DROP associated with the "Window Height" (A) is only a suggestion. You may choose any of the drops within the table you wish.

Step 2: Measure outside of window casing - edge to edge (B). If you mount the awning on the window casing (frame), this measurement is what you need. If you wish to mount the awning on the house wall then you need to add, at least, 1-1/2" on to each side to determine the final measurement. Awnings cannot be mounted on shutters.

Step 3: Select a fabric that best compliments your home, from our selection of over 50 fabric choices. The complete line of Sunbrella fabrics is open to you. All we need is a name and number of the fabric you would like.

Note: Special Orders in Custom widths up to 84", in one piece, in 1" increments are available. Call 1-800-922-4760 for pricing on special sizes
