All Prices in Canadian Dollars. Delivery to major centres in Canada is included! No Extra Charges! No Silly Fees! Only applicable taxes are extra.

How to Measure... for the Series 5500 aluminum roll up window awning

Awnings make a better home. Add window awning kits for shade, or door canopy kits for all weather protection. Retractable patio awnings for sun protection on your backyard deck. Trust us for quality products at discounted prices.

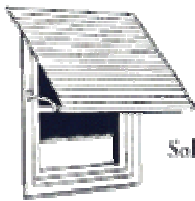

Step - 1: Using chart below, Choose the DROP that best suits your needs. This will determine how far down the window the awning will come. The DROP associated with the "Window Height" (A) is only a suggestion. You may choose any of the drops within the table you wish.

Step - 2: Measure of window casing - center to center (B). If you mount the awning on the window casing (frame), this measurement is what you need. If you wish to mount the awning on the house wall then you need to add, at least, 1-1/2" on to each side of an "edge to edge" measurement to determine the final measurement. Awnings **cannot** be mounted on shutters.

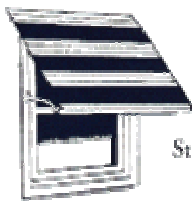

Step-3: Color and Pattern Choices:

[Select color](#) & pattern that best compliments your home, from our selection.

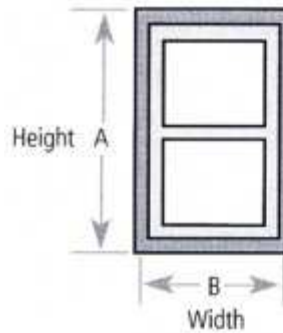

1. Available in solid or stripped pattern (No additional cost)
2. Undersides of all aluminum canopies are white only

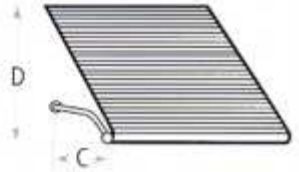

Solid

Striped

Up Position

***NOTE: Awning Width (hinge center):** Is the center to center distance in width between the 2 arms where they mount on wall or casing.

Note: Get the width you need going up in 1" increments.
