

Urban Gazebo

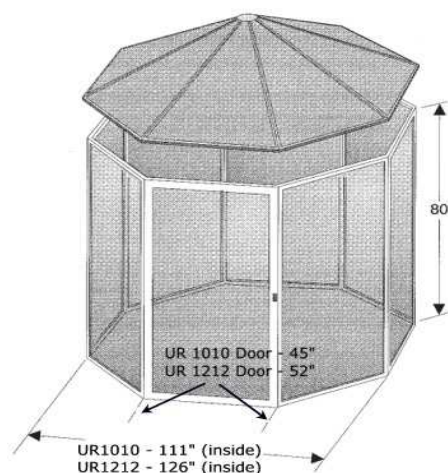

Solid Aluminum Insulated Roof

Do-It-Yourself Screened Enclosures

Hardtop Round Gazebo style

8 panels - 48" wide x 80" high each - shown

- The frame on the Urban Hardtop Gazebo is the largest extrusion used in the market today! A full 2" x 1" thick extruded aluminum frame means you have no need of center support bars. This means that you have a clear line of sight when seated.
- The Urban Gazebo is a modular, screened, snap together gazebo, complete with operative screened door, lantern hanger and fiberglass screens.
- The finish on the aluminum is a baked on enamel finish.
- You have a choice of a Right or Left hand side hinged heavy duty out-swinging door
- The roof is a 1" thick polystyrene core with a laminated, pebbled aluminum finish both top and bottom.
- This type of roof is of course completely waterproof, will not accumulate water and is rated with a 25 lb. per square foot snow load rating.
- All panels simply snap together. No silly cables or plastic or vinyl pieces. The supplied hardware is stainless steel for maximum strength and weather-ability.
- The room **SHOULD** be screwed to a deck or patio for maximum strength in summer and winter storms. The unit does come with ground anchors, however it is not the recommended best method of securing the Urban Gazebo.
- This is a very high quality, long lasting gazebo style room that is easily assembled within a few hours.
- The unit comes with instructions and an instructional video.
- Frame color choices are White or Sand
- Full one year warranty.
- **Prices in (\$) CAN**  for Delivery Included to most major centres

Size	# of Panels	Out-Swinging Door	Delivered Cost (\$) CAN	
			Credit Card	Certified Cheque
