

Instructions:

1. You will first need to complete the installation of your screen walls system. Your windows are necessarily a 'post' installation purchase, so that we can ensure that each window fits the opening it is built for.
2. You will need to measure each 'daylight' opening giving exact width and height of each opening. Do not add or subtract to that measurement!
3. Number each opening, moving left to right and according to the drawing that was given to you to use for your screen wall installation. If you do not have a kickplate, then you would have "Opening #1 - top | Opening #1 - bottom" for your first set of measurements, and so on.
4. Please reference your original quote number to us.
5. We will need to know which color of frame you require and which color of vinyl you require
6. You can fill out the form below or you can print the order form and fax or email it to us.

Name: _____

Address: _____

City: _____

Prov: _____ Postal: _____

Tel: _____

Email: _____

Quote # _____
(this is the number which was given with your original request for quotation.)

Window Measurements

Note: All windows larger than 42" in height or width will require a 'spreader bar.'

*Provide exact daylight opening measurements for each area that requires a window.

**Maximum window size = 50 1/2" x 72" or 72" x 50 1/2"

Frame Color:

White

Clay

Bronze

Vinyl Color:

Clear

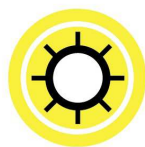

Grey

Bronze
