Manual EasyShades roll up perfectly straight every time - no tangles, no uneven slats like interior blinds! They don't take up any interior space, leaving more room inside for drapes or other interior design ideas. They give your home a clean, uncluttered look.

Like all EasyShades, our Manual EasyShade stops the sun outside, before it can heat up your home. It blocks 90% of sun, wind and mist, and lets you enjoy the view without the glare. No need to take it down in winter. 5-Year Manufacturers Limited warranty.

The ultimate vertical solar screen!

- Features all the same components as our motorized model
- Simple and easy hand crank operation. Even a child can do it!
- Unrolls to 7 feet, but can be partially unrolled to any length.
- [Simple installation](#) -- installs in minutes with simple tools.
- Retracts securely into its protective housing when not in use.
- Blocks 90% of sun, wind and mist, and lets you enjoy the view without the glare.

Manual EasyShades:

1. Measure for the width of your EasyShade. Manual EasyShades come in widths from 4 to 12 feet, in 1-foot increments. The total width is the width of the aluminum housing. (The fabric width is 4 inches less than the total housing width.)

2. Make sure you have at least 3-1/4 inches of clear, unobstructed space horizontally along your wall where you can install the brackets that hold the EasyShade Housing. The mounting brackets are universal, and can be mounted on a wall or hung from a soffit or ceiling.

Note: Manual EasyShades open with a Hand Crank (included). Crank operation is always on the right hand side of the EasyShade housing, as you face the house. Manual EasyShades can be unrolled up to 7 feet down.

Obtaining necessary permits is the sole responsibility of purchaser. Customers agree to hold ScreenHouses Unlimited and manufacturer free of any liability for improper installation, maintenance and repair.
