- Built-in flexibility for movement of deck and trailer - will not put stress on the screened room, nor the trailer
- Horizontal mounting rail may be put on the trailer in the same place as the old awning rail. No additional holes in the trailer wall

- The combination of roof overhang, roof tensioning system and roof pitch means that water puddles are eliminated.
- All panels are bolted together. No silly cables or plastic pieces. The room **MUST** be screwed to a deck or patio. This is a very high quality, long lasting aluminum framed room that is easily assembled in a few hours.
